

Transitional Words and Phrases

Updated lists by Joanna Taraba

This page only provides a list of transitional words; be certain you understand their meanings before you use them. Often, there exists a slight, but significant, difference between two apparently similar words. Also remember that while transitions describe relationships between ideas, they do not automatically create relationships between ideas for your reader. Use transitions with enough context in a sentence or paragraph to make the relationships clear.

Example of unclear transition:

The characters in Book A face a moral dilemma. In the same way, the characters in Book B face a similar problem.

Improved transition:

The characters in Book A face a moral dilemma, a contested inheritance. Although the inheritance in Book B consists of an old house and not a pile of money, the nature of the problem is quite similar.
